## New Barn for Alden House

Students watch UMass/Amherst archaeologists at the site of the new barn at the John Alden House.

On Saturday, Oct. 18, the Alden House Museum, 105 Alden St., will hold a groundbreaking ceremony for a new barn at 11. The event is open to the public, beginning at 10:30, and will include a reception, light refreshments, special exhibits and free tours of the Alden House.

The "Barn Project" has been on the drawing boards for several years. Many area residents have visited the site during archaeological work performed by the University of Massachusetts. While the "dig" has produced interesting results, it has been determined that the foundation work will not disturb artifacts.

Site plan for the new barn at the Alden House.
